

The China International Copper Week and 2023 (21st) China International Copper Forum

Currently, the global economy has encountered new challenges amid the tide of "anti-globalization". With prominent factors inhibiting the sustainable growth of the global economy, to ensuring the stability of industrial chain and supply chain is a crucial strategy to facilitate the dynamic cycle and healthy development of socioeconomic systems. In the breakthrough period of the new era, China is facing challenges such as structural contradictions, transformation of old and new dynamics, and the reconstruction of industries.

With the purpose of continuing to explore new trends in the development of the world copper industry, improving China copper industry's sustainability, and promoting it to overcome multiple challenges, China Nonferrous Metals Industry Association (CNIA) will hold "**The China International Copper Week and 2023 (21st) China International Copper Forum**" in **Kunming, Yunnan Province, China** on **September 19-21, 2023**. The theme is "Enjoy Glorious Journey, Embrace New Challenges". The unique gathering will be hosted by CNIA, co-hosted by China Copper Co., Ltd., and organized by Beijing Antaiko Information Co., Ltd.

The conference will invite authorities of relevant national ministries and industry associations; ICSG; MERI/J; leaders and representatives of domestic and overseas copper mines, smelting and fabricating enterprises; domestic and overseas merchants; leaders and representatives of investing and financing institutions of futures, securities and investment banks to attend.
