

2024 China Aluminum Week

Oct. 21-25, Kunming Yunan Conference Hotel
Kunming city, Yunnan province

As an important platform for international industrial cooperation, trade and investment, technology exchange and market analysis, 2024 China Aluminum Week is scheduled to be held in Kunming, Yunnan during October 21-25. The event will focus on international cooperation, green and low-carbon development, expanding applications, leading technologies, market dynamics, and other aspects.

2024 China Aluminum Week comprises of China Aluminum Forum, Seminar on Carbon and Aluminum Auxiliary Materials Market, China Green Aluminum Valley Conference and Pan Pacific Aluminum Summit. The event will organize delegates visit the key industrial park in Yunnan. At the same time, to promote upgrading of technology and equipment in aluminum industry, and display cutting-edge technological innovation achievements, China Aluminum Industry Chain Technology and Equipment Exhibition will be held during the event.

1

Introduction of China Aluminum Week

China Aluminum Week is an international conference for the global aluminum industry, which is developed from China Aluminum Forum that had been held since 2002. China Aluminum Week upholds the principle of Communication, Cooperation, Mutual benefit and Win-win, and builds a long-term cooperation platform for global aluminum industry in terms of resources, production, consumption, market, trade, technology, environmental protection and so on. More than a thousand of delegates of the global aluminum industry attend the conference and gather together each year, making it an annual great international event with authoritative, forward-looking and wide-ranging characteristics.

Agenda

Date	Time	Activities	
Oct. 21	12:00-22:00	Registration	
Oct. 22	08:30-22:00	Registration	
	08:30-12:00	Seminar on Carbon and Aluminum Auxiliary Materials Market	
	14:00-17:30	2024 China Green Aluminum Valley Conference	
Oct. 23	09:00-16:50	Opening ceremony and 2024 China Aluminum Forum	
	18:30-21:00	Pan Pacific Aluminum Business Buffet	
Oct. 24	09:00-12:00	Pan Pacific Aluminum Summit	CEO Dialogue
	14:00-17:00		Market salon
			Technology& Equipment Salon
Oct. 25	Field trip

2024 China Aluminum Week

Oct. 21-25, Kunming Yunan Conference Hotel
Kunming city, Yunnan province

Day one: Oct. 22

Seminar on Carbon and Aluminum Auxiliary Materials Market

- Hosted by: Beijing Antaike Information Co., Ltd
Aluminum Carbon Branch of China Nonferrous Metals Industry Association
Jiangsu Zhongshang Carbon Research Institute Co., Ltd.
- ◆ Opening Speeches (08:30-09:00)
 - ◆ Keynote Speeches (09:00-12:00)
 - High quality prebaked anode helps aluminum industry save energy and reduce carbon
 - Carbon emission accounting in the production process of aluminum anode
 - Graphitized cathode-core path for energy saving and carbon reduction in electrolytic aluminum production
 - Market outlook for carbon used in aluminum smelting in 2024
-

2024 China Green Aluminum Valley Conference

- Host: People's Government of Wenshan Prefecture
- ◆ Opening Speeches (14:00-14:30)
 - ◆ Keynote Speeches (14:30-17:30)
 - Products low-carbon certification has been launched, green aluminum in Yunnan has great potential
 - Current situation and new ideas for development of China's aluminum fabrication industry
 - Integrated development of secondary aluminum and aluminum fabrication
 - Consumption structure upgrading is accelerating, market outlook for the new trio sectors
 - Depth analysis of big data on the flow of aluminum products and investment opportunities in Yunnan
-

Day two: Oct. 23

Opening Ceremony & China Aluminum Forum

- Time: 09:00-16:50
- Host: China Nonferrous Metals Industry Association
- ◆ Opening Ceremony Speech
 - ◆ Keynote Speeches
 - Accelerate cultivation of new quality productivity and promote the high-quality development of aluminum industry
 - Outlook for global macroeconomy and commodity market
 - Scientific and technological innovation cultivates new driving forces for sustainable development of China's aluminum industry
 - Integration of power generation, grid, load and storage helps aluminum industry to become green and low carbonization
 - Proactively cultivate automotive lightweight terminal market
 - Research on global commodity market cycle
 - Tap the market potential of Southeast Asia by taking advantage of location
 - Report on carbon emission in China's aluminum industry
-

Pan Pacific Aluminum Summit Business Buffet

- Time: 18:30-21:00
- Host: Beijing Antaike Information Co., Ltd

Day three: Oct. 24

Pan Pacific Aluminum Industry Summit

- Host: Beijing Antaike Information Co., Ltd
- ◆ CEO Dialogue (09:00-12:00)
 - Resource security, how to optimize the global distribution of bauxite resources?
 - Resource development, how to use aluminum resource under coal mines/high aluminum coal ash with high value?
 - End- to- end recycling, how to achieve high-value utilization of aluminum scrap?
 - Scientific and technological innovation, how to create new quality productivity in the aluminum industry?
 - Green development, how to promote green and low-carbon development?
 - Stabilize exports, how to expand overseas markets?
 - ◆ Market Salon (14:00-17:00)
 - Alumina: keynote speeches, salon exchange
 - Primary aluminum: keynote speeches, salon exchange
 - ◆ Technology& Equipment Salon (14:00-17:00)
 - Report on intelligent technology
 - Utilization of renewable energy
 - Report on digital twin technology for electrolytic aluminum production
 - Flexible electrolysis and waste heat recovery technology
 - Innovation in energy management systems
-

Day four: Oct. 25

Field trip

- Route 1: Green Aluminum Industry Demonstration Park of Luxi County
- Route 2: Yanshan Industrial Park of Wenshan Prefecture

Date: Oct. 22-24

China Aluminum Industry Technology & Equipment Exhibition (CATE)

CATE is to showcase new technologies, equipment and achievements in the aluminum industry, build a platform for innovation, application and communication, and jointly promote the high-quality development of aluminum industry chain.
