VENUE

Four Points by Sheraton Qingdao West Coast

Join the 7th China International Hot Dip Galvanizing Symposium & Exhibition to stay at the forefront of your business!

The biennial China International Hot Dip Galvanizing Conference and Exhibition is one of the most influential hot dip galvanizing conferences in the world. The 2023 International Hot Dip Galvanizing Conference & Exhibition will be held in Qingdao, Shandong Province, China from October 22 - 24, 2023.

The program will feature the latest market trends and applications, advances in process technology, innovations, cost control, regulations and best practices. The symposium will be complemented by an exhibition of international equipment and service suppliers, galvanizing plant visits and networking opportunities.

This conference is targeted at hot-dip galvanizers, equipment suppliers, zinc and alloy producers, and others with a strong interest in galvanizing. Speakers will include Chinese and international experts from the zinc and galvanizing industries, academics as well as representatives of industry associations, public and private institutions.

This event will be an excellent forum for learning, exchanging knowledge and meeting existing and new business partners.

Simultaneous interpretation Chinese-English will be available throughout the sessions.

This event will be co-hosted by Zinc Association Information Technology (Shanghai) Co., Ltd. and Xuzhou RITMAN Intelligent Technology Co., Ltd. and Wedone Environment & Energy Technology (Shanghai) Incorporated Company with technical support from the International Zinc Association.

We look forward to meeting you in Qingdao !

REGISTRATION IS OPEN
